Dear Member,

In 1950, gasoline went for 20 cents a gallon, a new home cost \$14,500, and seven teachers gathered in Detroit to form an insurance company that has exclusively served teachers and the greater educational community for 65 years.

From humble beginnings in an office in downtown Detroit, Meemic has increased its offerings and recently expanded into its third state, Illinois. We have a total written premium of more than \$250 million and more than 120,000 policyholders. And we're ranked among the top 10 private passenger automobile insurers in Michigan – that's quite a journey!

To celebrate, we're launching a contest with 65 Reasons We Love Teachers (details inside).

Even though we've grown to 187 employees and more than 80 agents, we continue to hold true to the ideals of the original seven, sitting around a kitchen table and committing themselves to providing you with the best in service, products and protection.

Sincerely,

Steven D. Monahan
President and CEO
Meemic Insurance Company
